

TestFixture

```
graph BT; TestReseauNeurones --> TestFixture
```

The diagram illustrates a class inheritance relationship. At the bottom is a gray rectangular box labeled 'TestReseauNeurones'. Above it is a white rectangular box labeled 'TestFixture'. Two blue arrows originate from the top edge of the 'TestReseauNeurones' box and point upwards towards the bottom edge of the 'TestFixture' box, indicating that 'TestReseauNeurones' inherits from 'TestFixture'.
